About Aluma

Aluma Industries Ltd. The company engineers original solutions for product development and creation, and takes great pride from its variety of products, designed for jewelry manufacturers and small scale jewelers giving maximum attention to detail and specific needs.

Headed by Mr. Shuki Falk, a professional jeweler and educated engineer, the company constantly expands and applies its practical experience to its Israeli factory, which is backed by state of the art production facilities, further enhancing top quality products and unfailing reliable service.

The company specializes in production of items mainly oriented towards the pearl, gems and bead industry and offers its products to different clientele: producers, resellers and catalogues.

The company's specialization in specific items designed to meet the needs of a particular target group has allowed the company to supply products of the highest standards, a result of the expertise and experience gained by our organization and personnel from creating these products throughout many years.

Since 1987 Aluma industries has been serving its ever-expanding group of satisfied customers worldwide. All production procedures are in full control of the company, from product concept and model construction to production line, from product creation to quality inspection and final delivery. This level of absolute control allows the company to complete projects and meet quick supply requirements without depending on any external variables while effectively giving immediate solution response to any question or request for prompt deliveries.

Our guarantee: we take pride in the quality and value of everything we offer. If for any reason you are dissatisfied with a purchase, please contact us. We'll assist you with a prompt exchange, refund or credit

Our Service
